

Coaching & Consulting

We deliver leading Safety, Health and Risk Consulting solutions that inspire change, enhance leadership and add long-term business value to your organization. We believe in a systematic and balanced approach with a focus on key areas within your safety management system including: Risk Assessment, Effective Senior Leadership, OH&S Policy & Strategy.

Our goal is to help you prioritize your efforts so that you spend your limited health and safety resources wisely.

Short Term Health & Safety Consultant Service:

We provide organizations with skilled practitioners dedicated to assisting you to improve health & safety performance within your requirements & budget.

- Our team provides a variety of plant or field services, from regular on-site inspections, orientation, COR certification consulting to a full time Safety Officer.
- Our Safety professional will provide you with the clear understanding of legislative requirements & guidance you need to be confident that safety issues are under control at your facility or for your company during construction, expansions & turnarounds.

EHS Consulting

Based on an organization's EHS priorities and strategic plan, we offer solutions to meet your organization's needs. This includes EHS consulting in a number of areas such as developing and providing assistance implementing:

- a risk assessment process
- global EHS standards
- EHS training programs
- audit protocols
- EHS leadership education workshops, and
- safety and health sustainability integration.

OHS Auditing

With over 20+ years auditing workplaces from international corporations to small businesses, our approach aligns with international, regional and local auditing standards. We apply the most appropriate auditing tools to get the best long term results for companies.

Consulting	What we offer!
Safety Management Systems	Sturm Consulting provides consulting services to build the best safety management system, aligned with global standards. This systems approach ensures an efficient and effective program to meet your health and safety needs.
Sustainability Initiatives	Human Capital is the new dimension that boards of directors and business leaders are working with shareholders to realize safety performance for their company. Safety is becoming a profit centre for most organizations.
Corporate Compliance Audits & Standards	Sturm Consulting provides compliance reviews aligned to the ISO 19011 Guidelines for Auditing Management Systems and applicable to CSA Z1000, OHSAS 18001, COR, SECOR and Workwell audits.
Modern Risk Assessment	Workplace hazard identification and managing risk are the foundation of all OHS prevention programs and effective risk management . Our Hazard Identification and Risk Assessment expertise provides our clients with assistance in identifying workplace hazards and controls while assessing the risk of loss.
OH&S Best Practices, Policies, Procedures	The development of a customized OHS Best Practices, Policies and Procedures is the backbone of any OHS Management Program. We are able to customize your policies and programs based upon the needs of your organization.
Workers' Compensation & Disability Management Strategies	Our Workers' Compensation and Disability Management Program provides your company with effective tools and techniques to successfully manage workplace injuries and/or illnesses. We have over 30 years of hands on experience with workers' compensation and disability management issues.
